

## School Supply Wish List

Young people often have little more than a small bag of belongings when they come to us. Some are coming from group homes or foster homes and others are coming from homelessness.

First Place for Youth helps young people further their education and achieve their high school diplomas, enroll in college, or take part in vocational training to gain skills they need to begin their careers. Your donation of school supplies is much needed and received with excitement and gratitude by our young people.

Below are examples of specific items that would help kids to build their futures and achieve their goals.
